

UK BROADBAND STATS

INTERNET

AVERAGE SERVICE SPEED

According to a recent report, 97% of UK households should be able to get a 24 Mbps broadband service.

AVERAGE DOWNLOAD SPEED

The average download speeds for standard broadband in the UK are around 10 to 11 Mbps.

UK FIBRE SPEEDS

Fibre broadband speeds in the UK can reach up to 1,000 Mbps or more.

BROADBAND RANKING

The UK ranks 44th in the world for average internet speeds among developed countries

COVERAGE

About 80-90% of the UK is covered by BT fibre, and 60% is covered by Virgin Media's dedicated fibre network

FIBRE STATS

Fibre-optic cables are less prone to degradation than copper wires, making fibre broadband more reliable.

LANDLINES

Some internet service providers (ISPs) offer landline-free broadband packages, but these options may not be as widely available as landline-required packages.

BT SUBSCRIBERS

It is estimated that BT fibre has 9.3 million subscribers across the UK.
